## BUS LINE ON SAN PABLO ASSURED

## CAR TRACKS ARE NOT TO BE REPLACED

Modern Means of Transportation to Be Installed in Case Street is Widened

The operation of a bus line on San Pablo avenue from Stege junction to Alvarado park is practically assured. City Manager James A. McVittie last night informed the city council that he had received a communication from the Key System Transit company in which they showed themselves in favor of the project.

A letter, received from George H. Harris of the Key System declared that the revenue derived from the present street car line does not warrant the company replacing or moving the present tracks on San Pablo avenue in the event that the highway is improved by the city.

A conference was held by the city manager, City Engineer, E. A. Hoffman and Chief Engineer H. P. Bell of the Key System at which time the proposed installation of a bus line on the average to replace the street car tracks was discussed. City Engineer McVittie informed the company that the city proposed to pave San Pablo avenue and that the street car tracks would have to be moved to the center of the roadway in the event that the Key System planned to continue operation of the line.

Property needed for the widening of the roadway at the curve has been already secured by the city.

In proposing the bus line, Harris in his letter stated that the company would be able to give better service to the residents in the district and that it could be expanded to meet future needs.

Connection between the district and the business section of the city is to be made by way of the street car line along Macdonald avenue to San Pablo.

Besides meeting the present service to the district the establishment of a bus line running to Stege will furnish transportation to the residents in the district south of Macdonald avenue. Should the district adjoining Alvarado park build up, the company could extend the bus line and furnish the section with adequate transportation without added cost as would be the case with street car tracks. It was pointed out.

Following the reading of the commission, the council ordered it filed.

## Asks Suspension Of Street Work In Rheem District

Requesting the city to suspend plans for the paving of Maricopa, Lowell and Rheem avenues, the Richmond company, through Lark-J. Younce, vice-president last night filed a request with the city council for the withdrawal of a former petition asking that the improvements in this district be made.

City Engineer E. A. Hoffman stated that plans and specifications had been nearly completed but that they could be used at a later date, should the desire for the improvements again arise. He stated that the work to date had cost approximately \$1,200.

The council granted the request for the withdrawal of the former petition for the work.

George Lee, local broker returned on Sunday evening from a week end trip to the Russian River.

## New Features Are Added To Record Herald

Appearing in this issue of the RECORD-HERALD is the beginning of a new feature service which includes every phase of the news today. The already complete picture service has been augmented in this service with additional live news pictures. A daily article by Peggy Hopkins Joyce on "Hearty" and "Lively" illustrated article on "Where Are They Now?" which gives a history of the former great men and many other features are included.

For the children and the grown ups too for that matter a series of stories in picture form are presented in a novel and interesting manner. The first of these is the "Gold Bug" by Edgar Allan Poe, and for the ladies there is the story of Vivian Vanilly on the society page.

Looney Land! Uncle Eph; Squirrel Food and numerous other humorous articles and illustrations will be featured daily. The sport world has not been overlooked, for large illustrations with stories of the stars of the sport world of the present day and another on the present occupation of former stars keeps the sport reader informed as to his favorite players.

There are so many features in fact that we can't say any more about them and still leave room for one most of them. Read them and then pass the good word on to your friends, they can't afford to miss them.

## HERRIOT HAS NAMED NEW STATE HEADS

(By Universal Service)

PARIS, July 19.—With prediction sounding in his ears that his cabinet will not last 48 hours after its first contact with Parliament, Premier Edouard Herriot presented the new government to President Doumergue tonight.

Keeping the position of Premier and Minister of Foreign Affairs in his own hands Herriot announced his new cabinet is composed of the following ministers:

War, Paul Painleve; public works, Andre Hesse; interior, Camille Chateaux; finance, Anatole Demontzie; commerce, Louis Loucheur; agriculture, Corzeau; education, Edouard Daladier; navy, Rene Renoult; labor, M. Pasquet; (Continued on page 5)

## Standard Avenue Paving Is to Be started Soon

City Attorney T. M. Carlson last night told the city council that work is progressing and that every detail will in all probability be completed within six weeks on the widening of Standard Ave. He stated that court technicalities will take about thirty days after the findings have been filed and that the findings together with the assessments will be completed and ready for filing within two weeks.

City Engineer E. A. Hoffman is working with City Attorney Carlson in preparing the assessments and told the council that cooperation on the part of the Standard Oil company had reduced the length of time ordinarily required for this work.

## LESS ARRESTS IN THIS YEAR THAN IN 1925

Efficient Operation of Police Department is Shown by Annual Report

Although Richmond has increased in population there were less arrests during the fiscal year 1925-1926 than the previous year, according to the annual report of chief of police Dan Cox, presented to the city council last night. Total arrests for the past year were 1,183 as compared with 1,344 for the year ending June 30, 1925.

While crime shows an increase in other cities, the annual report shows that crime is decreasing in Richmond. The number of both male and females arrested was less than for the previous year.

Nearly all of the arrests made were on misdemeanor charges and but fifty of them were on felony charges, as compared to 71 the year preceding.

Motor vehicle and traffic laws while they form the largest items on the report show a decrease over the previous year. There were 606 arrests for this year as compared with 683 for 1924-1925. Liquor charges formed the next largest number on the police report. There were 257 arrests made on liquor charges this year as compared with 248 the previous year.

Other items on the misdemeanor arrest section of the report are battery, 18 as compared with 14 in 1924-1925; city ordinances 15 to 68; disturbing the peace 15 to 18; embezzlement 1 to 2; failure to provide 5 to 0; gambling 6 to 5; insane 12 to 13; vagrancy 106 to 90; Wright Act 45 to 69.

Of felonies, there were 5 charged with burglaries this year as compared with 33 the previous; two assaults to three; and fictitious checks 5 to two.

Property reported stolen amounted to \$17,197.86 as compared to (Continued on Page Five)

## HEALTH CENTER REPORT

The report of the Richmond Health Center presented to the city council last night shows disbursements of \$1,385.70 were made. The report, signed by Nora L. Purviance, was ordered placed on file.

## Richmond Delegates Attend Opening Of Lions' District Meeting In San Francisco

The starting of the annual district meeting of the International Lions Club at San Francisco, finds many Richmond members of the club in attendance.

The district meeting will be followed by a convention which will last from Wednesday until Saturday.

The Lions were accorded a royal welcome upon their arrival in San Francisco yesterday. The meeting of the California, Nevada and Hawaii clubs opened at 8:30 yesterday morning in the San Francisco Civic Auditorium with a big attendance and adjourned at noon for a luncheon at the hotel Whitcomb roof in honor of district presidents and closed last night with a grand ball in the auditorium.

Jack Riley, district governor was the honor guest at a big banquet staged last night in the Hotel Whitcomb.

## IMBACH IS TO RUN FOR TAX COLLECTOR

GEORGE F. IMBACH

Nomination petitions for George F. Imbach for county tax collector were placed in circulation yesterday afternoon, and were being very generally signed. They will be ready for filing by Thursday afternoon.

Imbach is one of the best known men in Richmond, and has an acquaintance that extends to all parts of the county. His entry into the fight is the result of requests received from many sections of the upper end of the county, as well as Richmond.

Imbach's many friends predict that the whirlwind campaign that he will make, will be the surprise of the year.

## POUND REPORT

The report of Pound Master Frank Meader for the month of June shows that there was a total of eighty-two dogs received during the month. The report was presented to and ordered filed by the city council last night.

Fifteen dogs were redeemed, forty-three killed, one given away and one returned, leaving sixty dogs in the pound June 30.

There were two horses impounded and two redeemed; one cow impounded and one redeemed and seven goats impounded during the month. One goat was redeemed, and two were killed leaving four goats in the pound June 30.

## Richmond Delegates Attend Opening Of Lions' District Meeting In San Francisco

Tomorrow the big international convention will open and about 10,000 delegates and visitors from the Lion's clubs of Canada and Hawaii are expected to attend.

The program for the week calls for tours of the east bay district and among the tours is that of Richmond by the ladies of the Lions on Thursday. Mrs. C. R. Blake is in charge of the arrangements. It is planned to have the ladies welcomed at the Richmond-San Francisco ferry on Thursday morning and they will be escorted to the Hotel Carquinez for luncheon and later will be taken on a tour of the county. They will then be brought back to Richmond and will enjoy a swimming party in the Municipal natatorium.

Richard's headquarters at the meet is at the hotel Whitcomb and twelve delegates from the local den are in attendance.

## DOCTOR HELD IN QUIZ OF DEATH OF S. F. NURSE

Doctor's Refusal to Sign Death Certificate Starts Probe

(By Universal Service)

FRESNO, July 19.—A probe into the death of Leila Atkinson, former student nurse at the San Francisco City and County hospital, was launched by Fresno authorities today following the refusal of a Fresno surgeon to sign her death certificate.

As the first steps in the investigation, Dr. Carl H. McPheeters, who operated upon the girl on July 9, was held for questioning. Miss Atkinson died last Friday—the day of her intended marriage to Lloyd Christian Johnson, owner of a number of San Francisco and Bay city theaters.

Miss Atkinson died after a second operation, performed by other physicians, after she developed acute peritonitis.

District Attorney George R. Lovejoy, who ordered the inquiry, said that the authorities will await the result of an autopsy for the purpose of determining the cause of the peritonitis before taking further steps.

During the questioning of Dr. McPheeters by Lovejoy today, however, it was disclosed that Miss Atkinson was formerly the physician's office assistant and had been sent by him to the San (Continued on Page 8)

## Protest Closing Of Canal Street

Protesting the closing of Canal street among the streets to be closed in the section south of Cutting boulevard, the city council last night received a request from H. W. Wernse asking that the city exclude this street from the proposed work.

In making the protest, Wernse called the attention of the council to the sewer program of 1914 and 1915 and stated that the city was in need of the street for the storm sewer. He requested that the city in its program of closing several of the streets decided upon at the last meeting of the council keep Canal street open for the storm sewer.

## TAX REPORT

The annual report of City Tax Collector J. O. Ford presented to the city council last night shows that \$729,055.13 was collected in taxes during the fiscal year. The council ordered the report placed on file.

## TWO THEATRE SAFES ROBBED BY YEGGMEN

Yeggmen operating in two theaters of the Eastbay section early yesterday morning partially wrecked the Golden Gate Theater, 5512 San Pablo avenue and after forcing an entrance to the California Theater in Pittsburg carted away the safe which was reported to contain \$15,000 in money and other valuables.

Although authorities from both Contra Costa and Alameda counties were immediately put on the trail of the bandits no trace of them had been found at a late hour last night.

It is believed by the authorities that the same group of safecrackers operated in both cases. That the robbers endangered their lives in the Oakland case is indicated by the condition of the theater. Portions of the iron safe which was blown to bits were found one hundred feet from where it originally stood.

A considerable portion of the \$550 in currency and silver which was in the safe at the time was blown to bits and scattered all over the theater building.

It was stated by authorities yesterday that the group which blew up the Oakland theater safe was probably the same gang which on Friday night made an unsuccessful attempt to rob the safe of the Pacific Gas and Electric company in Berkeley.

## Oil Stove Starts Fire

MARTINEZ, July 19.—Fire started by an oil stove early this morning threatened the home of W. A. King, at Castro and Henrietta streets. Prompt response of the fire department is responsible for the saving of the house which extinguished the blaze with the loss only of the oil stove, a broom and mop handle.

## Rammed Oil Barge Has Been Repaired

MARTINEZ, July 19.—Restoration of the mammoth oil barge Martinez, owned by the Shell Oil company, rammed and sunk in Racoon straits by the Associated Oil tanker Frank G. Buck, on April 28, has been completed at the Union plant of the Bethlehem Shipbuilding corporation at a cost of approximately \$50,000. This work was completed in thirty days from the time the barge was received.

## FERRY HIT BY TUG IS GROUNDED

(By Universal Service)

SAN FRANCISCO, July 19.—With her engines disabled, and hull shattered at the water line, due to a collision with a tug, the Southern Pacific Automobile ferry Melrose drifted close to a steamer loaded with dynamite late today before the 100 passengers aboard were rescued.

The accident occurred outside the Oakland estuary. The passengers taken from the disabled Melrose were landed at the Oakland wharf, just as the auto ferry settled in the mud on the Alameda flats.

## SPECIAL GARAGE PERMIT ASKED

A request for a special permit to build a public garage on the south side of Nevin avenue between Ninth and Tenth streets was received by the city council last night from C. Warning. The petition stated that the garage would be built of fireproof materials. The council referred the matter to the city planning commission for one week.

## Fire Hydrant and Arc Light Asked

Residents in the vicinity of Forty-first street and Roosevelt avenue last night petitioned the city council to install a fire hydrant and arc light at the intersection. The petitions were signed by six residents in the district. The installation of the fire hydrant was referred to the fire and water committee for one week and the installation of the arc light was referred to the light committee for the same period.

## Social Bureau Allowed \$100

The city council last night approved the appropriation of \$100 a month from the general fund to be used by the Richmond Social Service bureau in carrying on its work.

## Guests At Carquinez

Guests registered at the Hotel Carquinez yesterday included: G. L. Amerlione, Fort Wayne, Indiana; W. E. Terry, Mrs. M. Fisher, Emma C. Anez, Los Angeles; Louise Anez, Los Angeles; Charles M. Huekles, Los Angeles and J. Scipano, Colusa.

## 28 ARE DEAD IN EASTERN HEAT WAVE

(By Universal Service)

CHICAGO, July 19.—Furnace like heat parched the states lying between the Rocky mountains and the Atlantic seaboard today. Temperature of 100 degrees and above was recorded at scores of stations. The middle west suffered most.

A recapitulation of casualties resulting from the heat and accompanying storms late tonight showed 28 dead and scores prostrated. The record stood: Illinois 9; Minnesota 3; South Dakota 2; Wisconsin 2; Ohio 2; Iowa 1; New England 0.

The Illinois dead were confined to Chicago where the temperature reached 94 degrees at 4 o'clock this afternoon. Two of the dead were infants. It was feared the death list would grow. High temperature records were broken in Nebraska and South Dakota with 102 at Omaha, 104 at North Platte and 104 at Sioux City, Iowa, and readings of 110 were unofficially made by street thermometers.

## PRIMARIES VS. CONVENTIONS

With the exception of seven states in which nominating conventions are held by law, and two others in which the party organizations have the option of choosing their candidates through either a direct primary or a convention the primary system prevails throughout the United States.

The seven states which still adhere to the method of nominating candidates for state and federal offices by convention are Idaho, Connecticut, Delaware, New Mexico, Rhode Island, Utah and New York. In the latter state, however, all county and local officers, as well as members of the house of representatives, are nominated in primaries.

Georgia and Maryland are the two states in which the party organizations decide for themselves the method of selecting candidates.

In a republic parties are indispensable to the conduct of the government. From the foundation of the republic parties have existed and in each election platforms have been formulated upon which parties have laid before the electorate the policies of government which each advocated and to which each is committed.

A political party is a combination of voters having substantially similar views. Parties appeal to the government on the basis of the principles outlined in their platforms. Without a convention of delegated representatives of a party no means for which candidates standing for office can be presented to the voters. Of course each candidate may formulate and enunciate his own platform. But such a plan is the basis of the "bloc" system, as opposed to party control or guidance. The candidate is bound to support no policy other than that which he may formulate for himself. No "committee on resolution" has prepared in advance a declaration of principles upon which an appeal to the people is made. He presents nothing like a platform by which the voters may know what to expect and the voter is robbed of the right to hold a party responsible for its sins of omission or commission.

Further, the candidate of a primary, when elected is frequently at entire variance with his colleagues to whom he is not responsible, even though he may have been elected upon a "regular" party ticket. His personal platform may be inconsistent with his party's policies.

It is always a difficult thing to get the American voter sufficiently interested in an election to take the trouble to go to the polls on election day. In the primary election the same thing is encountered and it is only through the most strenuous efforts of party managers that he can be dragged to the polls. In a recent village primary in New York, with a voting population of some 500, there were only five votes cast, and three of them were by the election officers themselves.

The result is that whenever a sharp contest exists among individuals for a coveted nomination large sums of money must be expended, with the inevitable scandals following the expenditure. The old convention system had its bad features but none to compare with those which have developed since the adoption of the primary system in so many of the states.—*Washington Post*.

## BEAUTY HINTS

By Peggy Hopkins Joyce

### THE PERMANENT WAVE

How many hideous wavy heads we saw last season. How many tales of havoc, left in the wake of last year's permanents, are related over bridge tables! But these are just enough successful "permanents" seem to make the proposition puzzling.

"We'll be frank," say those who know, "the 'permanent' does a certain amount of damage, but only in proportion to the neglect which the hair and scalp receive, both before and after the wave."

A healthy head of hair, no matter what the texture, nearly always takes a good permanent wave. Color cells in the healthy scalp are not destroyed by the process. Split ends and dandruff, which result, are easily remedied. But the process is strenuous and constant care must be taken of the hair afterwards.

### FIRST MAKE TEST

To play really safe, one should persuade the hair dresser to wave a lock of one's hair as a test first. Then the result won't be a gamble. Only one hair generally takes a good wave but dry hair is often stronger and breaks less during the process. Look out if your hair is dyed! Certain coloring stuffs react like lye with the permanent wave preparation. Choose your shop with care and be sure your hair is in good condition before you take the "permanent" step.

Remember those straw-like tumps you've seen? They aren't at all necessary, nor are they the fault of the process. The permanent wave will get that way with too frequent washing. Wield your hair brush instead. Get one with long, soft, pliable bristles, and brush with upward and outward strokes. This not only cleans the hair, but it brings the oil down from the scalp. The "permanent" dries it out of the hair. Wash your brush frequently.

### COTTON FOR TONICS

Oils and tonics, if your scalp needs them, should be applied with cotton. Be sure your scalp absorbs them. Don't let them remain on the surface.

Split ends should be snipped off, and signed. Treat them with oil, applied with the finger tips. Last but not least—let me discourage those frequent and expensive trips to the hair dresser for water waves. Do it yourself. Just get some nice, long, broad combs or even hair pins. It's easy to learn to slip them into place. Tie a little net over the ensemble, then do what you please about the house for a half hour till the waves emerge all trim and gleaming. One of the worst things for your permanently waved hair is the artificial dryer.

Your best shampoo is a castile soap and olive oil solution, but let me reiterate, you with the permanent wave, your best friend is your hair brush. Use it.

## Ford-Kennedy Wedding at the Trinity Church

At a wedding held in the Trinity Episcopal church on Sunday afternoon, Miss Carol Mac Ford, daughter of Mr. and Mrs. J. O. Ford, 11 Montana avenue, became the bride of John Robert Kennedy, of Berkeley. The Episcopal double-ring ceremony was read by Rev. Ross Truman, of Berkeley.

Two solos, "At Dawning" and "I Love You Truly" sung by Miss Miriam Garrard preceded the ceremony. Miss Garrard was accompanied on the organ by Mrs. Freda Stephens, a cousin of the bride.

At 4 o'clock headed by Rev. Ross Truman, the bride and groom, ushers, Clarence Kennedy and Edwin Fanning, the bride's attendants, Miss Antoinette Bean of San Francisco and Miss Ruth Haney, of Richmond, the two attractive bridesmaids came next. They were followed by Miss Marion Kennedy, a sister of the groom who acted as maid of honor.

The three were dressed in bouffant taffeta gowns, with floral and lace trimmings. The maid of honor's dress was of Nile green while Miss Haney was gowned in peach color and Miss Bean in Alice blue. A French shower bouquet was carried by each. Little Joan Caulkins, married next, strewing rose petals in the path of the bride.

The bride was escorted by her father, J. O. Ford. She wore a gown of white georgette crepe that was heavily beaded and her veil, stretching to the floor, was of soft white tulle. She carried a bouquet of Orchids and Ophelia buds.

The church was decorated in festoons of green ferns and a white flower bell hung over the altar. "Lohengrin's" Wedding March was played as the procession marched to the chancel where the bride was met by the groom who was attended by Arthur Fischer, Mendocino's "Wedding March" was played as the recessional.

Following the wedding a reception was given at the home of the bride with about one hundred close friends and relatives in attendance. The bride and groom and Mr. and Mrs. Charles C. Kennedy received the guests.

The home was beautifully decorated with pink and white blossoms. Throughout the reception, Miss Dorothy Crowell, of Berkeley played the violin, accompanied at the piano by her mother, Mrs. J. Crowell.

A buffet lunch, consisting of pink and white cakes and ices was served. Mrs. E. Tarr of Oakland and Mrs. Harry E. Hammond of Richmond, poured the coffee. Little Francis Ford and Jeanette Powell gave the guests individual boxes containing wedding cake.

The many wedding gifts, included china, silver and art objects, were on display in the living room.

In the evening the happy couple left for their honeymoon to be spent in the south. They will return to this city about August 1 and expect to move to their new home in Mira Vista in September. They will be at home to their friends after that date.

## THE ADVENTURES OF VIVIAN VANITY

### No. 1—"Introducing Vivian Vanity"

Vivian Vanity of unknown parentage and hard childhood of poverty possessed a rare charm and manner.

She was adored by Carl Brink, multi-millionaire and humanitarian, and by Norman Dix, who had loved her for years. With a gift for designing, she had become a style authority and owned an exclusive gown salon.

She longed for romance and dreamed of moonlit castles and strange, beautiful scenes of some other life.

## STAGE PRESBYTERIAN C. E. SOCIETIES MEET

The junior, intermediate, and senior Christian Endeavor societies of the Stage Presbyterian church held separate meetings on Sunday evening. At the Junior meeting at 5 o'clock only business was transacted.

The seniors met at 6:30 o'clock also at the church. Rev. H. K. Sanborn Jr., addressed the members informally and told of his vacation trip in the Yosemite valley, Tahoe and various parts of Nevada.

Preceding the intermediate meeting the members motored to the county hospital at Martinez where they distributed flowers and fruits to the patients.

As the topic of the intermediate session was "Out Door Meetings" the society met on the lawn of Miss Helen Maxwell's home to discuss business.

## DRUIDS HOLD ANNUAL PICNIC

Games, sports and dancing featured the picnic held by the Druid circles and groves of Richmond and Crockett at Giant park on Sunday. A basket luncheon was served at noon.

## LONGS RETURN FROM TOUR OF THE COUNTRY

Postmaster and Mrs. James N. Long arrived in Richmond yesterday from their trip across the continent. Two months were required to make the tour during which they covered more than 10,000 miles across 26 states.

Perhaps the most interesting part of the trip was that to the summit of Pike's Peak, according to Postmaster Long. This trip was made from Colorado Springs starting at an elevation of about 7,000 feet over the toll road to the summit with an elevation of 14,107 feet. The 7,000 feet climb is made over a road 17 miles in length passing through some of the most rugged of the Colorado scenery.

Leaving Richmond the Longs traveled across New Mexico, Texas, Louisiana, Alabama, Mississippi and Florida. They traveled down the Atlantic Coast of the latter state and spent several days in and around Miami.

The northward trip was across Georgia, North and South Carolina, Tennessee, East and West Virginia, Maryland, Delaware, New Jersey and Pennsylvania. Another stop was made at Atlantic City and one at the exposition in Philadelphia.

Turning westward the local people traveled through Ohio and down into Kentucky, where they visited the birthplace of Lincoln and the world-famous Kentucky caves. Crossing Indiana, Illinois, Missouri, Kansas and Colorado, they arrived at Pike's Peak to the top of which they drove their car. They returned to Richmond by the southern route and through the Mojave desert.

## SURPRISE IN STORE FOR AREME SEWING CLUB

When the members of the Areme Sewing club meet this afternoon at 2 o'clock in the Masonic hall a surprise will be in store for them. Mrs. Mollie Black, president, is in charge of the event and she promises a treat for the afternoon.

## THRILLING FILM IS SHOWING AT THE CALIFORNIA

Tense, terse, thrilling—here is stark drama, stark as the desert against which some of the scenes are pitched, yet smoldering with a passion akin to the blistering sun that heats the sands.

That's "The Lady Who Lied," latest of the Carolee series of the sandy wastes, as shown yesterday for the first time locally under first National auspices at the California Theater.

Never to the writer's mind has the importance of the director and his technical side been more strongly emphasized than in this production. Too often the public looks merely to the cast, and if it contains their favorite or favorites they see the picture.

Carolee and his technicians have produced such locales as the Sahara, Algiers, Venice, with telling realism. In fact, as regards the desert scene, we see no difference between these in "Son of the Sahara," a previous Carolee production, and the present one, yet we are told that, while the former was actually made in the deserts of Algeria, the latter was filmed within the enclosure of a Hollywood studio.

A clamorous carnival scene, with a background of the Grand Canal of Venice, alive with gondolas, is another example of the lavish scale and the realistic reproduction of localities in this film.

You will find Lewis Stone, Virginia Valli, Nita Naldi and other players of proven capability in the chief roles. And as for the story, if you have read Robert Hichens' "Snake Bite," you will understand that "The Lady Who Lied," since it is an adaptation of that novel and a faithful one, offers prime entertainment.

Other features include "Mum's the Word," a Charley Chase comedy; "Topics of the Day"; "Felix the Cat" cartoon, and Larry Canelo, at the organ.

A group of master plumbers of this city, accompanied by their wives and a number of friends journeyed to Brooklyn over the weekend to visit John L. Collins, city councilman and well known local plumber who is recuperating in that city from his recent illness.

## PETITION FOR SECOND BRIDGE IS SUBMITTED

A petition requesting the board of supervisors either to grant a franchise to the Northern California Development company to build a bridge across the Carquinez strait or to submit the franchise to the voters of the county in the fall elections was filed in Martinez yesterday.

There are 5,000 names of registered voters on the petition, which have been circulated during the past three weeks. This number is more than sufficient to call an election on the proposition in the event that the board of supervisors refuse to grant a franchise.

The Development company plan to build a bridge across the strait from Eureka to Dillon's Point. The board of supervisors have twice refused to grant them a franchise. The company is fully financed and is ready to start construction at once. Bonds for the bridge had been sold in Eureka yesterday, the deal to the site at Eureka was filed in Martinez and the case for the site at Dillon's Point was filed in Solano county.

## Distiller Pays Heavy for Guard On Whiskey Car

(By Universal Service)  
WASHINGTON, July 19.—Machon's task of moving the mountain was dwarfed into insignificance today by the heroic exertions of a distiller to ship a carload of whiskey from Kentucky into Mexico.

The Sunnybrook Distillery Company started moving a thousand cases of Kentucky's finest toward Mexico in May, 1926. Through a mixup the consignment failed to clear promptly at El Paso. The shipment went into storage.

The government labeled it, the United States Marshal attached it, and a railroad agent placed a lien against it for freight, war tax and storage.

Three years later, with the court action dismissed, the distillery was forced to pay the Santa Fe Railroad storage charges of \$1,550 and the whiskey went back to Kentucky.

For mounting guard over 1,000 cases of "pre-war stuff" in a dry country, the charge was not too much, the Interstate Commerce Commission ruled today.

## Youth Gassed While Resting During Big Lumber Plant Fire

A rest under the truck of the Walnut Creek fire department pumping water onto the fire at the Coos Bay Lumber Yards in Bay Point on Friday night almost proved fatal for Melvin McCall, 19, of Walnut Creek.

McCall, who was fighting the fire, became tired and had down under the fire truck. The carbon monoxide gas of the gasoline fumes from the motor swiftly overcame the boy and he had in a stupor for an hour before found by companions, who removed him to one side of the truck and gave him up for dead.

Later John Birones of the Martinez fire department came by and quickly discovered that McCall had been gassed. Summoning E. Vianni to his aid, he started the resuscitating of McCall by the Shaffer method. In an hour McCall had recovered sufficiently to be taken to the first aid room of the mill.

P. T. Duffy, well known local plumber is planning to leave this morning for a three month vacation in the east. He will spend most of his time in Trenton, N. J.

## Honolulu's Civic Square is Named

HONOLULU, July 12.—"Palace Square" is the name that has been agreed upon by various civic and commercial bodies for the civic center around which Honolulu's public buildings stand.

The new name comes from the fact that the territorial executive building, former palace of Hawaiian royalty, is one of the outstanding structures of the square.

Other buildings local to the site are the National Guard Armory, the old Admiralty of the Navy, the Judiciary building, the Federal building, Public Library, new territorial administration building and Legislative chamber, the "Westminster of Hawaii."

When the ceremony was completed and the couple united, the newly made Mrs. Mello left for her husband's honeymoon in Oakland and Mello was taken back to the jail.

## TWO ACCIDENTS OVER WEEK-END

But two accidents occurred in Richmond over the week end, with one person receiving minor injuries. Deep gulches along the head were sustained by George Schubert, seven-year-old daughter of Mr. and Mrs. H. P. Schubert, 522 Terrace Drive, El Cerrito in an automobile accident on Macdonald avenue.

The Schubert machine and the one driven by Mrs. Mary Smith, 214 Seventh street collided.

The Schubert girl was taken to the Abbott Emergency hospital where her injuries were attended by Dr. L. St. John Hely and she was later removed to her home. Her injuries are not serious. Both cars were slightly damaged.

A car driven by A. O. Clark, 117 Twenty-third street collided with a parked car belonging to J. L. Manouse, 229 Nevin avenue. The accident occurred on Macdonald avenue and but slight damage was done to the cars.

## 28 Are Dead In Eastern Heat Wave

(Continued from Page 1)

storms were reported in various sections of the country. Of the deaths, six were reported in Chicago, two in Minneapolis and four in Arizona. Many persons were overcome and it was expected the death list would be increased.

In Chicago the temperature mounted to 93, but that was mild compared with cities to the west. Readings of 100 degrees or more were reported at Anahua, Pierre, S. D., and on the plains of Kansas. Chicago's homeward bound crowds tonight sweltered as they jammed street cars and elevated trains. A number of passengers were overcome and removed to hospitals or their homes.

Thousands quit work during the day and fled to the beaches. Early tonight all the beaches along Chicago's thirty miles of water front were alive with splashing humanity. Some planned to spend the night beside the water, complaining to was too hot to sleep at home. Many sought relief in the parks, sleeping on the ground.

The hot wave is moving in a general direction and higher temperatures are expected to prevail from the Great Lakes to the Atlantic seaboard during the next day or two. Thunderstorms and windstorms accompany the heat movement.

Hot winds were reported during burning up wheat and corn in Iowa, Nebraska and South Dakota. Wheatfields green in the morning turned brown by night in localities where no rain had fallen and where the temperature exceeded 100 degrees.

The highest temperature was reported from the southwest, in Arizona and New Mexico. There readings ranging from 110 to 115 were not uncommon.

A freak of the weather was reported from Minnesota. While the temperature stood at 100 degrees in Minneapolis a flurry of snow occurred on the shores of Lake Superior. A hundred and fifty miles to the northeast.

## CHICAGO IS DENIED DRY LAW STUDY

WASHINGTON, July 19.—Wayne B. Wheeler, General Council of the Anti-Saloon league, turned "thumbs down" today on the demand of Mayor Dwyer of Chicago, for an authorized study of the prohibition question.

Mayor Dwyer, in fact, was told by the dry leaders to enforce the law, rather than advocate a check-up on law violators. Wheeler said:

"When Mayor Dwyer blames the misgovernment of big cities on the eighteenth amendment, he forgets the records of his own city. Mayor Dwyer might read the reports of the Chicago vice commission. Lord Bryce's volume on our democracy and almost any crime study ever made in the United States. He would learn that the lawlessness, corruption and misrule of many of our larger cities were generally recognized long before national prohibition."

"This city has always been the center of vice and misgovernment. To agree with Mayor Dwyer that prohibition is one of the chief causes of crime is to say that it is the cause of the crime that has made Chicago a lawless city. It will not be settled, however, by cities that have surrendered to lawless domination by executives who think the way to restore law and order is to repeal the law which criminals break."

"If that were true, then Chicago should begin repealing its traffic laws, and ordinances since they are most flagrantly violated, although most necessary for the safety of the people."

## C. Vanderbilt Jr. Breaks With Family Over Paper Policy

(By Universal Service) NEW YORK, July 19.—Cornelius Vanderbilt Jr., has split with his family. On his return from Europe today he said that the only tie remaining between them is that of blood.

"I have seen my father only three times in two years and on two of those occasions I was accompanied by my attorney. I have seen my mother only twice in two years."

The cause of the break is money, he explained. "My people promised me a lot of support for my newspapers," he said, "but they didn't come through with it."

"Advertisers owe me considerable money and I have been in trouble because I could not look after my affairs personally."

"I hope however, to resume operation of my newspapers shortly."

When Vanderbilt's three newspapers in Los Angeles, San Francisco, and Miami got into financial difficulties last spring, it was rumored that young Vanderbilt and his rich family had split. It is said that his parents did not agree with his editorial policy. All three papers have suspended since then.

## LESS ARRESTS IN THIS YEAR THAN IN 1925

(Continued from Page 1)

\$23,863.50. Property recovered amounted to \$9,403.67 as compared to \$17,063.99 on the previous report. Property reported lost amounted to \$1,418 as compared to \$948.49 and property recovered amounted to \$1,080 as compared to \$587.99.

There were 77 warrants served this year as compared with 64 and 26 search warrants served as compared with 73. The department received 1,776 circulars during the year and sent out 126 as compared with 1,627 received the previous year and 425 sent out. The number of photographs made amounted to 168 this year as compared to 295 last year. The department received 611 letters and sent out 175.

Street light failures for this year were less than half the previous year. The report shows that there were 1,913 as compared with 3,889.

Following is the disposition of arrests:

Acquitted, 2 and 0; bail forfeited, 132 and 81; committed to asylum, 4 and 7; delivered to federal officers, 4 and 0; delivered to outside officers, 58 and 58; delivered to probation officer, 37 and 75; dismissed, 28 and 66; fined, 481 and 619; held to answer, 6 and 7; no complaint filed, 160 and 247; pending, 125 and 39; reprimanded by court, 55 and 45; sentenced to county jail, 45 and 41; commitment withheld, 43 and 45.

Injuries from accidents were: All types of collisions, 45 and 5 and 1; street car, 2 and 4; automobile, 34 and 19; suicide attempts, 2.

Fatalities from accidents were: Automobile 1 and 1; collisions, 0 and 1; falls, 0 and 1; motorcycle, 0 and 1; street car, 0 and 1; miscellaneous, 7 and 2; suicide, 0 and 5; sickness, 1.

During the past year the department took complete record of 41 subjects, making 13 prints and 15 photographs of each. Of the total number of finger prints, six identifications were made in the home bureau and 26 from the state bureau, making a total of 32, which is a percentage of 41.03 per cent.

Of the 41 subjects of whom a complete record was made, conviction of 5 felonies and 32 misdemeanors were obtained. Four felony cases were adjudged not guilty.

Mrs. J. J. Barry returned to her home yesterday afternoon accompanied by her infant daughter, Lois Irene who was born at a San Francisco hospital several days ago.

## HERRIOT HAS NAMED NEW STATE HEADS

(Continued from Page 1)

colonies, M. Bariac; and justice, M. Colard. With the exception of three ministers, Bariac, Colard and Loucheur who are members of the Moderate and Center parties all the others are Cartel members. The most optimistic prediction from the Cartel camp says that Herriot will get a majority of only 15 votes.

(By Universal Service)

PARIS, July 19.—"I have formed a cabinet and will present it to President Doumergue tonight," declared Herriot, the Radical-Socialist leader entrusted by the chief executive with the task of forming a ministry to succeed that of Aristide Briand, which fell owing to the chamber's attitude towards its proposed financial reforms, made this declaration at 7:20 this evening.

M. Herriot has been laboring day and night to secure a group of ministers, representative of all the leading parties and at the same time with ability to pull France out of the financial morass into which she has fallen, with consequent depreciation of the franc.

His most important task was to find a genius to succeed Joseph Caillaux, finance minister in the Briand cabinet, whose demand for what amounted to dictatorial powers in order to save France financially resulted in the downfall of Briand's government.

SCORE DEBT FACT

LONDON, July 19.—The Anglo-French debt agreement came in for a severe attack by the Liberals and Laborites in the House of Commons tonight.

Philip Snowden, chancellor of the exchequer in the defunct Labor cabinet, gave it as his belief that the United States would come out better than Britain in the matter of war debt settlements.

ENGLAND WORRIED

(By Universal Service) By H. H. Stanbury (Copyright 1926, Universal Service)

LONDON, July 19, British ministerial and financial circles regarded the French political situation with the utmost gravity.

They have ceased to talk of the future of the franc. Instead, they are discussing anxiously the future of France.

The Daily Graphic, after a reference to the countries that have resorted to dictatorships since the war sum up the sentiment of all the newspapers in these words:

"Failing a dictatorship, what then? Dissolution of the present chamber is one way of escape."

"Without a parliament does anything remain except disaster?" "The curtain has not been rung on the last act of the drama. When it does it may show Herriot commanding the stage to the confusion of able men, or it may show a social and economic upheaval in which more than the franc will go down."

"If a Napoleon appeared today—even a Napoleon of puny stature who doubts that France would rally to him?"

"Foch still is a magic name to the masses of the French people. Fochcare also is powerful, but neither is of the Napoleonic type."

Little faith is expressed here in Herriot's ability to master the situation. One critic says:

"His methods are fussy; his thinking fuddled. Where Briand, a more nimble tactician and incomparably higher in the national standing went down, how can a Herriot survive?"

The forthcoming visit of Secretary of the United States Treasury Mellon is the subject of the widest speculation. Despite his statement that his visit is unofficial, it is regarded as certain that he will be drawn into the situation in some manner.

Mrs. C. E. Spalding, 1169 Macdonald avenue has returned to her home after a visit to Portland, Oregon.

## Driver Held as Car Breaks Back Of Oakland Man

A Russell, a carpenter is confined to his home in Oakland with a broken neck and head. Ackerly, of Pittsburg is under arrest charged with driving while intoxicated as the result of an accident in Pittsburg on Sunday.

According to the arresting officer, Russell was leaving the curb at Third and Railroad streets, Pittsburg, when Ackerly drove around the corner and crashed into his car. Russell was not thrown from his car but he did receive a severe jolt. When taken to the Martinez hospital it was found he had received a broken bone in his spine.

Russell was removed to his Oakland home where he is lying in a dangerous condition. His car was badly smashed while Ackerly's machine received a crumpled fender.

## Louis Werner Dies in Berkeley

Louis Werner, father of William Werner, 2722 Garvey avenue, passed away at his home 1410 Berkeley Way, Berkeley, on Sunday morning after a long illness. Funeral services will be conducted at 2 o'clock this afternoon from the Hall Conservatory parlors in Berkeley.

Deceased was well known in Richmond, having been a student here on numerous occasions.

## Beauty From Within

Facial beauty cannot come from cosmetics. It must come from within. In anything that mars the complexion, pimples, blackheads, oiliness or blemishes, is due to blood impurity.

Medical science has found a new way to correct it. Physicians are prescribing it to millions. And they consider it one of the marvels of modern medicine.

It is a blood secretion, derived from liver cells. It stimulates the liver, multiplies the flow of bile and no other method does that.

The result is prompt relief of constipation. The bile floods the bowels—keeps them clear. That result comes in a few hours.

But bile is also Nature's antiseptic. It combats the germs in the intestines, the germs whose poison cause so many bad complexions. A new flood of bile is the greatest beautifier science knows.

That liver-purifying secretion is embodied in Dioxol tablets. Each tablet represents ten drops. We urge you to learn what it means to you. The results will amaze and delight you.

"Clip this advertisement. Take it to our Special Agent, La Moine Drug Co., and he will give you a liberal sample of Dioxol free."

## CHANNEL SWIM IS FOUND TO BE EXPENSIVE

By ROBERT J. PREW  
(By Universal Service)  
LONDON, July 12.—If you want to swim the English Channel, you must figure on an expenditure of at least \$500, beginning from the time the shore from which the attempt is to be made is reached.

This is the estimate of the cost of trying to swim the Channel made by an anonymous Englishman who has tried it. He adds that the figure varies very widely.

For instance, Mme. Jane Sten, the splendidly built French blonde swimmer, got away with an expenditure of less than \$100; but she has all the wise frugality of the French. She employs no trainer, her husband is her chaperon, and she does her practice swimming near her home at Dunkirk, keeping house meanwhile. Local boatmen are proud to watch over her safety, and local swimmers are proud to accompany her. The Calais Chamber of Commerce places at her disposal at a reduced fee a tug commanded by a master with great experience in helping swimmers to cheat the Channel tides.

It is estimated that Gertrude Ederle's unsuccessful attempt last summer must have cost \$5,000. She was accompanied by a chaperone and stayed two months in England and France. A full-time trainer was engaged. Boats and boatmen for train-swims, the services of a messuise and the hire of a tug for the full-dress rehearsal ate up more money. Amusements and short sight-seeing trips to relieve the deadly monotony of training were found advisable at intervals. For the actual attempt, the cost of the tug was \$250, to which must be added the hire of a jazz band to keep up the spirits of the swimmer during the long hours when superhuman endurance and courage are called for, and the purchase of provisions for the thirty or forty people who normally accompany each well-founded Channel swim.

Charles Tott's efforts, crowned with success in 1923, are said to have cost his Boston admirers a mint of money. To keep the cost down to \$500, new aspirants are advised to hire part-time trainers and pay no more than \$125 for the hire of the tug during the actual attempt.

## HANDICAP PIN CONTEST TO START TONIGHT

## R. R. CROSSINGS TO BE REPAIRED

The Santa Fe Railroad company will repair the Standard avenue crossing and the crossing at Thirty-seventh street as soon as its crossing crew returns to Richmond, according to City Engineer E. A. Hoffman who informed the city council of this proposed work. City Engineer Hoffman stated that Engineer W. Kelly, of the Santa Fe, had informed him of the plans made by the company.

The conditions of the crossings was called to the attention of the council by Councilman E. J. Garrard.

## DOING THE SPORTING THING

By JOE ARCHIBALD

America's famous walker, Willie Plant, has added still another record to his string. At the Metropolitan Association's indoor track and field championships, Plant broke the one mile Metropolitan walk record, leading all the way and marking off the distance in 6 Min. 40.1-sec. Plant competed against a formidable array of walkers, including Harry Hinkle of the New York A. C.

At the Millrose games, Plant faced Goodwin, England's champion hiker, and walked away from him. After lapping the field, Plant retired for the day. The Morningside A. C. star has little or no competition in America with the exception of Harry Hinkle, who is rated a shade better than Plant at the seven mile distance, although Willie was hailed as National A. U. seven mile champion at the end of 1925.

In the Olympic games last summer, Plant injured a tendon in his leg, which is supposed to have slowed him up in the long walks, but toward the close of last year, Frigerio of Italy, the man who beat Willie in Paris, came over to show us just how he did it. We are still wondering. Plant walked all around the Olympic champion, and if he was a cripple, then Helen Keller can wire a radio set.

## DEMPSEY FIGHT IN CHICAGO IS QUESTIONABLE

(By Universal Service)  
CHICAGO, July 19.—The same mixup that caused Tex Rickard to come to Chicago to see about staging a Dempsey-Tunney fight here, has blocked the path in Chicago, it was believed tonight. The New York Boxing commission insisted that Dempsey fight Willis, the negro challenger before Tunney. Now Doc Krone, a Chicago promoter has insisted that the shaded boxer be given the right in Chicago, the proceeds of the match to be given to County Treasurer P. J. Carr's Christmas fund.

Rickard has so far issued no statement, except that he is enthusiastic about Chicago as the fighting center. It also may be Rickard's fighting center, for he has announced that he is to marry Maxine Hodges, a Chicago girl.

"If I decide to hold the match in Chicago, I will bend every effort to draw a larger gate than the one for the Dempsey-Carpenter fight. That gate amounted to \$1,600,000, the largest in boxing history. The more I think of Chicago as the location, the more enthusiastic I get."

## Population of State Is Now Over 5 Million

(By Universal Service)  
SACRAMENTO, July 19.—Based on his figures on increased property values in California, State Controller Riley issued an estimate today which placed the state population on June 25, 1925, at 5,066,288.

Controller Riley estimated the population of San Francisco on that date as 662,603, that of Oakland as 280,633, and that of Los Angeles as 1,260,315.

## TILDEN VICTOR OVER ANZAC IN MATCH IN EAST

(By Universal Service)

BROOKLINE, Mass., July 19.—William T. Tilden of Philadelphia, the national champion, began his drive toward another leg of the Longwood bowl by defeating Frank Broadhurst of Melbourne, Australia, 6-2, 6-2, in the first round of the Longwood invitation tournament which began here this afternoon.

In another international encounter Sekio Tawara, the hard-hitting Little Japanese champion, easily defeated his first round opponent, Donald Martin of Newton, 6-1, 6-3. Takeichi Harada scored again for Japan when he defeated Sherman Lockwood of San Francisco, 7-5, 6-3.

Edward Chandler, the intercollegiate champion, who is making a strong bid for a national ranking this year, won his first round match easily from J. W. Lane, Jr., of Longwood, 6-0, 6-1.

Alfred H. Chapin, Jr., of Norringfield, Mass., eliminated a tough player in Louis Thalheimer, of Dallas, Texas, 6-4, 4-6, 6-3.

Lucien E. Williams, of Chicago, the former Yale player and inter-collegiate champion, had little trouble in disposing of Howe Bancroft of San Diego, Cal., 6-3, 6-2.

The Far West scored over the East when Thomas Stow of San Francisco, trounced Charles Beasley, of Newport, 6-4, 6-1.

## Firemen Nine Loses Game on Ploughed Field

Ploughed ground is all right on the playing of croquet and for varying bats to go fishing but on a ball grounds in the slang of the day, it is "all wet."

Such proved the case when the Richmond firemen played the Albany Merchants at Albany on Sunday and lost to the tune of five to four, the second game out of ten played that they lost.

In the course of the nine innings the local team chalked up nine errors, due to the rough nature of the ground. The Albany team is building a new diamond and the lot is ploughed up.

Jiggs Wright was on the mound for the local team and struck out 11 men and allowed six hits.

Dave, for the Merchants, allowed but two hits, two doubles gained by Pansch and Lavenue, and struck out twelve men. The Merchants added five errors to their list.

On Sunday the Firemen will go to Pleasanton to play that team here.

A return game with the Merchants is slated to take place here soon.

## Sportographs

### OAKS

The Oaks broke even in the two games played on Sunday but lost the series to the hard hitting Angels. After seeing the morning game one knows why the Angels are in the lead for they played like the real champions, but the afternoon game was blah with Stutz and Jahn looking like a pair of dumbbells for the Angels. Today will see the Oaks go up against the Portland Beavers and the fans are wondering what will happen. The last time the Oaks played the northern team they defeated them four games to three.

### TEX RICKARD

Tex Rickard is casting around in the general direction of staging the "proposed" Dempsey-Tunney championship fight. He has announced that he will promote the fight if he is assured that it will be handled properly. He told the world that if Chicago wants the fight he will see what he can do to have it staged there. In the meantime the "Champion" is at Colorado Springs, supposedly in training but in reality posing for the news reels photographers in plus-fours.

### TENNIS

It is thought that a recommendation will be made that no more American tennis players will be sent to Paris by the U. S. Lawn Tennis association unless the French are more orderly in the staging of their tournaments. The captains of the two teams that invaded France this year will make the recommendations, according to word received from New York.

### DELANEY

Now that Delaney took the title from Berlenbach we wonder if he will do the same that Dempsey has been doing, that is, sticking around doing nothing. But if the new champ does do nothing he will have a good excuse for so far there is no one in the field that could give Jack a battle that is worth talking about while Dempsey has plenty of good fighters to pick from.

### BABE RUTH

Terrible, terrible, what is this younger generation coming to? Jazz, but why bore you with the rest of the junk, you know it by heart. Sufficient to say that the newest person taken into the toils of the law was none other than the Hon. Babe Ruth who was "pinched" for speeding. The slugger paid the court \$25 and went his way. Ruth had stepped on it and had sent the speedometer to register 35 in a fifteen mile zone.

### BRUIN BASEBALL

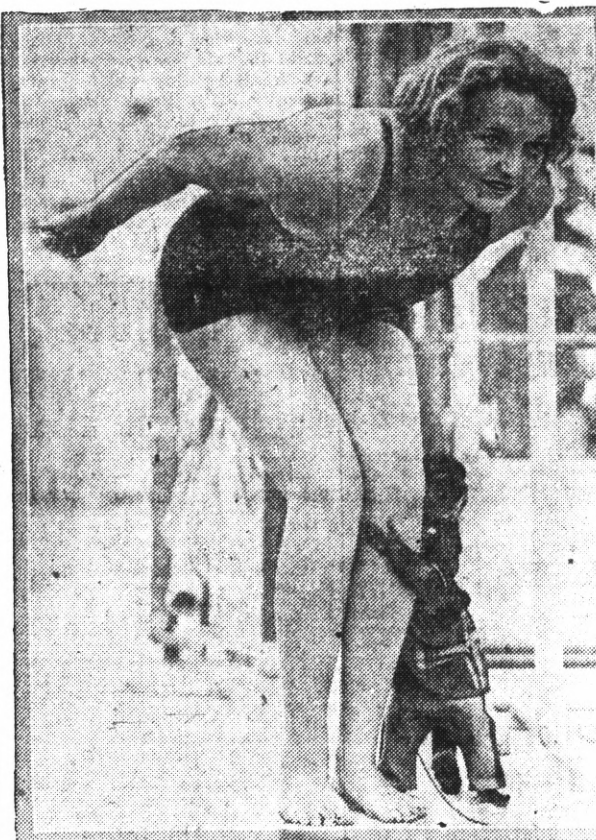

The University of California baseball team playing its last game in Honolulu lost to the Honolulu Braves by a score of 5 to 3 on Sunday. The Bears lost four games and won sixteen while in the Islands. They will sail for San Francisco tomorrow on the S. S. Matsonia.

## Deciding Game In S. O. League Here Thursday

Thursday night will see the crucial contest of the 1926 Standard Oil Twilight Baseball League with the Refinery and the Mechanics crossing willows. If the Mechanics win they will have the pennant cinched and if they lose it gives the Refinery a slight chance of victory.

On Wednesday night the All Standards' and Barrel House will do the battling.

Two building permits amounting to \$9,548 were issued yesterday by City Building Inspector A. J. Hurley.

The City of Richmond secured a permit to erect the band stand in Memorial park. The cost of the structure will be \$9,298.

Wallace Snelgrove, the contractor, plans to start construction immediately.

A permit amounting to \$250 was issued to W. E. Randall to build a one-room addition to a cottage on the east side of Thirty-sixth street between Macdonald and Nevin avenue.

## IRONWORKERS CONTENDERS FOR TITLE

Will the Ironworkers come through with a win for the second half of the series of the Three league and play the Concord aggregation a three game series for the championship of the league. This is the question that Phil Jones and his men are being asked day after day and Phil is the world that he has every reason in the world to believe that the local team will hang the three C pennant in their stables.

But three games remain in the series and at the present time the local team and Concord are tied for first place with two wins and no losses.

In nine fast and furious innings at the first street field here on Sunday the Ironworkers gave the Pittsburgh Y. M. I. a once over and then knocked them about the lot to the tune of 10 to 4. The fray started in the first inning and the murder was prolonged throughout the remaining eight.

Matthews, local chucker, although he allowed 11 hits, pitched a good brand of ball while the local team connected for fifteen hot singles.

The feature hits of the day were Provich's homer and Matthews and McElroy's triples.

The last game of the season will be played here in August against the Concord team.

## DOCTOR HELD IN QUIZ OF DEATH OF S. F. NURSE

(Continued from Page 1)

Francisco hospital to study as a nurse.

That the doctor wrote her love letters while she was in San Francisco, and persuaded her to come to Fresno for an operation, are two reported developments in the investigation it was declared.

The operation was performed on June 9, presumably for adhesions growing out of an old operation, the authorities were told. Apparently on the road to recovery, Miss Atkinson suddenly took a turn for the worse and on July 15 Dr. George H. Sclaroni and Dr. C. M. Vanderburgh performed a second operation.

They diagnosed the case as peritonitis, and her chances for recovery were poor. On the following day Miss Atkinson died, and yesterday Dr. Sclaroni refused to sign the death certificate. This action halted the burial, which was set for today, and led to the investigation.

District Attorney Lovejoy made it clear that Dr. McPheters was not under arrest today. He was held for questioning, however, by Sheriff William F. Jones and Captain of Detectives Jackson L. Broad.

There is no question of an illegal operation, Lovejoy asserted. The authorities are seeking to determine the cause of the peritonitis, he declared. Dr. Sclaroni said he made no investigation of its cause when he was called in on the case, but merely defined the cause of the girl's illness.

It developed during the questioning of Dr. McPheters that Miss Atkinson had been his office assistant for several years and was sent to the San Francisco hospital by him. During her stay there, according to Lovejoy, she received numerous letters from the Fresno physician disclosing his love.

Four of these letters Miss Atkinson turned over to Johnson, her fiancé, while the remainder she placed in her trunk for safekeeping. She met Johnson while she was at the hospital, and after a courtship of a year they announced their engagement.

The autopsy will be performed by Dr. F. L. R. Burks and Dr. E. L. Bennett.

During the questioning, which was carried on by District Attorney Lovejoy and Deputy District Attorney Ernest Walling, Dr. McPheters declared there had been nothing criminal in his operation on the girl. He also said that his relations with her had been only that of a friend, due to their association in his office.

Although the burial was halted today by Dr. Sclaroni's refusal to sign the certificate of death and the body was held by the officials for the autopsy, the bereaved family held the funeral services as originally planned.

## Ormiston Is To Be Quizzed Before Kidnapping Case Of Evangelist Is Completed

(By Universal Service)

LOS ANGELES, July 19.—The county grand jury will hold its fourth and last session on the Alvin Karpis-McPherson case tomorrow, but the official investigation will not close until Kenneth G. Ormiston, former radio expert of Angelus Temple, appears here and tells all he knows to the authorities.

This was indicated tonight following the receipt by District Attorney Asa Keyes of a letter from New York bearing Ormiston's signature. Although the taking of testimony by the grand jury will be brought to a close tomorrow, the official investigation directed by the district attorney will continue.

The grand jury is not expected to return indictments in the case. Unless it does return indictments no action will be taken. This has been definitely established. Ormiston's address in New York was withheld by the district attorney and only a portion of the letter that came in the mail today was given out. It was made known that Ormiston made a categorical denial that he was in any of the several Pacific coast cities to which he has been traced during the last two months.

The letter was mailed from New York last week, and followed a telegram signed with Ormiston's name stating that the communication was enroute by mail.

The full contents of the letter will not be given out until it has been submitted to the county grand jury which resumes its investigation into the McPherson case tomorrow.

It was learned, however, that Ormiston entered a general denial of any connection with the mysterious case. He denies, it is said, that he went to a Riverside hotel and asked for Mrs. McPherson several days after her disappearance at Ocean park on May 18.

Ormiston's presence at Salinas with a mysterious woman, and the report that he had been seen at Santa Barbara or San Luis Obispo was termed untrue by the letter. The report that he had registered at an Oakland hotel under the name of "K. Gladstone," was also denied.

Ormiston's signature on the document is said to have been pronounced genuine by investigators of the district attorney's office.

The return of indictments in the case will indicate that the grand jury members believe Mrs. McPherson's story true. If, however, no indictments are returned it will be taken to indicate that the evidence is such that it is impossible for the grand jury to take definite action.

## Forest Fires In Northern Part Of State Continue As Entire Town Is Wiped Out

(By Universal Service)

SACRAMENTO, July 19.—With one valley town virtually wiped out and two others threatened, the inferno of forest brush and grass fires which have raged for twenty-four hours continued throughout northern California with unabated fury today.

The old mining village of Quartz, Tuolumne county was almost entirely destroyed by flames which are tonight reported sweeping on over brush and ranch land between the Tuolumne River and the lumber town of Standard.

Reports received by the state board of forestry said that 27 houses were burned at Quartz and that Stent, a village one mile distant escaped the same fate by a narrow margin after four ranch houses had been laid in waste.

In Yolo county a fierce conflagration is sweeping through the fertile Capay Valley and a turn of the wind, according to reports, has placed the town of Guinda in danger.

A force of more than fifty men from Dunsmuir, Delta, and other nearby towns in Shasta county were tonight attempting to control a fire which swept over a fourteen mile front and threatened the lumber town of LaMoine last night.

Another balze which endangered Drytown, Amador county for several hours Saturday, was said to be under control.

South and east of Lake Almanor, in Plumas and Lassen county, nearly 1,000 men were today fighting a fire raging through the timber of the Red River Lumber company.

### POOL HALL PERMIT

A. D. Wickstrom, of 105 Tunnel avenue San Francisco, last night petitioned the city council for permission to conduct a pool and billiard room at 316 Sixth street. He also petitioned that body for a license to sell soft drinks in the establishment if permission is granted.

Upon the recommendation of members of the license committee the city council granted the permits.

In his request which was signed by five business men of the city, Wickstrom stated that if permission is granted to him, he would become a resident of Richmond. The building in which he plans to conduct a pool hall is the former post office building on Sixth street.

## EL CERRITO IS DENIED RURAL MAIL SERVICE

A communication was received by the board of trustees of El Cerrito last night from Congressman Chas. F. Curry stating that city delivery from the El Cerrito postoffice was impossible at the present time but that delivery might be secured through Berkeley and that he would and an inspector from the postoffice department appear before the board in the near future and explain what could be done to obtain to get better service.

## Council Discusses Paving Plans For Nichol Park Section

A report on the proposed improvements to be made on streets between Nichol park and San Pablo avenue from Macdonald to the Santa Fe crossing was made to the city council last night by Councilman W. W. Scott, chairman of the street committee.

Councilman Scott stated that the committee came to the decision that a cheaper paving than that requested would meet the needs of the district. Due to the low price of the lots he recommended that a less expensive paving be installed.

Members of the committee made an inspection of the district yesterday afternoon and decided that many places, because of the low land, would have to be filled in.

The recommendation of installing sewers in the sections now without them was also made last night. The entire matter was placed in the hands of City Engineer E. A. Hoffman for two weeks.

## Local Society Events

### Birthday Party Is Planned By Royal Neighbors

The Royal Neighbors have planned many events to take place in the near future and among them is a birthday party to be given at the Memorial Hall.

Mrs. Nina Vickery assisted by a large committee will be in charge of the birthday party which will be given in the first week in August at the Memorial Hall.

Mrs. O. T. Miller, Mrs. Rose Roeder and Mrs. J. Hansen are in charge of the picnic to be given some time in the near future at a place as yet unnamed.

Mrs. Charlotte Sheldon had charge of last night's session which was "white elephant" night which proved to be most successful.

### REDMEN PLAN SWIMMING PARTY

Plans for a swimming party to be given at the municipal natatorium some time in the near future by the Onetah Tribe of Redmen in conjunction with the Pochontas and the county tribes and councils, were made last night by the Onetah tribe at the Redmen's hall.

M. E. Pacheco had charge of the session.

Mrs. Rose Havely has returned from a six week trip to Chicago and other points east.

### African Missionaries Give Dr. Voronoff Apes

(By Universal Service)

PARIS, July 19.—Church missionaries in Africa provided Doctor Voronoff with the first five anthropoid apes for his gland operations is the revelation just published by L'Intransigeant. Fearing skepticism or even hostility on the part of fellow Paris scientists, Doctor Voronoff decided he couldn't appeal to them for the necessary financial backing to bring apes to Paris.

The surgeon consequently went to his friend, Mgr. Le Roy, superior general of the Holy Spirit Congregation of Paris. After considerable reflection the representative of the church decided that it was proper to enlist the missionaries in the aid of science. Six months later, Dr. Voronoff received his first consignment of five animals.

### TAHOE TEAM VISITS MARTINEZ

A group of the members of the Degree team of the Tahoe Council of Pochontas attended the sessions held last night by the Martinez council. The members of the local team combined with the members of the Fruitvale team in order to make a complete team to stage the degree work.
